RE: Endorsements for Dr. Jeff Magee

Dear Dr. Magee:

Exceeded all of our expectations!

You brought together all of the ideas that were presented throughout the weekend to our leadership team from across the nation and "hit it out of the park!"

Your ideas, strategies and techniques on management effectiveness and leadership, not only made it easy to apply, but made it fun for our members to participate in your session.

I have heard nothing but positive comments from everyone, and as you know, many of the chapter leaders want you to come and work with them immediately. Thank you for working with us to make the message meet our needs and in contributing a successful inaugural President's Summit!

Sincerely,

Executive Vice President
